To Whom It May Concern,

Upon reading about this job listing at Travelopia, I knew it was a good match for my skill sets, Your mission of providing collaborative, solution-oriented services to individual and corporate clients aligns with my passion for teamwork and service, and I believe my skills will help me thrive in this role, Between my education and work experience, I'm positive I'll be a strong addition to the team. Since graduating from college, I've held a number of engineering roles in the software sector. I've worked extensively with the technologies included in the listing, such as Artificial Intelligence, Data Analytics, .Net, AngularJs, JQuery, Linux, JavaScript, HTML, LINUX, Express, MongoDB Python, C, C++, Java, and SQL, I learn new languages and frameworks quickly. More importantly, I have a keen problem-solving awareness that has helped me succeed in previous roles. For example, I did a project on the Speakup app for Women's Safety during my final year at University which brought a sense of safety to Women in my college and was a great Hit, and this is an example of my problem-solving capability, I am eager to apply these skills to support your company, and I'd be thrilled to discuss my qualifications more in person. I have also attached my full resume detailing my experience and achievements for your review.

Thank you for your time, and I look forward to your reply.

Sincerely,
Reegun Rufus G
